Keilmdkarmversion5keygenerator(1) manuals.Q: c# with interop design Suppose I have a COM server API written in C#, and I want to write another application in c# that uses that API, and I don't want to write the m/c calling/wrapping code. The API uses.NET classes so it's ideal for me. I know.NET COM provides Interop assemblies, but I don't know if that allows me to avoid generating my own wrapper class since I can't find the source code for the wrappers. If I can find it, does that 6d1f23a050
